# Eat him Hungern!

by MiaQc

Summary

A short story between Skullgirls and Pikmin. Umbrella and Hungern face Marie alone. Alone? Well, not quite.

- A translation of Mange-le Hungern! by MiaQc

Umbrella and Hungern face Marie.

"Why have you come here?" The Skullgirl asks. "If not to die."

"To defeat you, Skullgirl!" Umbrella replies.

Hungern makes sounds that only Umbrella can understand.

"And Hungern wants to eat the Skull Heart."

"Very well. Prepare yourselves!"

The battle against Marie begins. Umbrella and Hungern have the upper hand at first, but they're quickly weakened by Marie's skeletal minions.

"What to do, Hungern? At this rate, we...!"

Suddenly, Umbrella hears a small, deep voice coming from the ground.

*"Umbrella-himaki, chodou maliainashitey!"* [1]

Hocotatian language. It's Captain Olimar!

Umbrella knows he came to their planet because he was worried about the Pikmins who mysteriously appeared at the Canopy Kingdom, but why is he here? How did he get to the catacombs?

Umbrella sees that Olimar is analyzing the situation. He looks at Marie, at her, then at Hungern. He sighs.

*"Umbrella-himaki, Hungern-shi watako na tabetey."* [2]

"Huh? I don't understand, Captain."

Umbrella understood her name and Hungern's, but nothing else. Olimar then imitates someone eating. He points at Hungern and then at his chest.

"What? But..."

*"You shouldn't have come here, Olimar. I will have to destroy you."*

Marie had spoken, but it was as if she had two voices. One spoke in the language the little princess understood, the other in Hocotatian.

How could the Skullgirl speak Olimar's language? Thanks to the Skull Heart? Annie had been able to communicate with him thanks to Sagan's power, but the magical girl TV star didn't speak Hocotatian.

Olimar's hyphenated eyes widen and stare at Umbrella. The princess, playing along, refrains from crying.

"There... there's... no other way... so... EAT HIM HUNGERN!"

Hungren catches Olimar with his tongue and swallows him whole. Marie laughs softly. Umbrella boils with rage and whistles with two fingers. An army of Pikmin arrives.

"Catch!" Said the princess to Marie.

She throws Hungren at her. Marie catches him, without knowing why.

"Perfect! Pikmins, the Skullgirl has killed Olimar!"

"No! I didn't ki..."

"TAKE HER DOWN!!!"

Pikmins of all kinds pounce on Marie. She drops Hungern to the ground. She kills several, but the Pikmins are way too many. Marie is quickly defeated.

"Hungern, spit him out!" orders Umbrella.

Hungern sulks thus Umbrella squeezes him until he spits out Olimar, alive and well. The surviving Pikmins happily hop over to him.

"How could such a thing happen?" The Skull Heart asks.

"Never underestimate the Pikmins' strength!" Umbrella replies. "Hungern, EAT IT!"

Hungern eats the Skull Heart and his teeth destroy it. The princess makes a small high-five with Olimar. Olimar blows his whistle to assemble the Pikmins. Olimar, the Pikmins and Umbrella, holding Hungern, leave the catacombs.

"I can't wait to tell my sister everything!" Umbrella said with a smile. "She's going to be SO jealous!"

[1] Meaning "Princess Umbrella, I arrived just in time!" I was inspired

by the Japanese coming from Google Translate. :D

[2] "Princess Umbrella, let Hungern eat me."
